## Our belief and pride

### 1, Beauty

Each piece of our bridalwear is a work of art created by the craftsmanship of Kyoto Nishijin kimono fabric.

Our traditional wedding kimono are made of pure silk with exquisite embroidery and golden gilded designs.

We also offer headwear for the bride - an ornate wig in Bunkin-Takashimada style to go with the traditional Japanese wedding gown.

The wig is adorned with accessory called Kanzashi, a delicate and traditional ornament created by Japanese craftsmen.

### 2, Quality

**All our staff including the dressing assistant, photographer, videographer, and photo album editor, are highly experienced professionals.**

You will be dressed and transformed into an elegant and beautiful bride by one of our highly experienced dressers. Your hair will be coiffured to perfection by our skilled stylists. All you have to do is to relax and let them do their jobs!

### 3, Prices are easy to understand

You can easily see what is included in each package plan and what options are extra.

### 4, We own all our dresses at Haruricca

We keep in stock all the dresses you see on our website. Therefore, you can check them out beforehand if you so wish.

If you change your mind about the dress you have selected, you may choose another one, free of charge.

# Locations for photography

**For the first time, we are now permitted to photograph in the grounds of Daisho-in.**

The historical buildings of Daisho-in Temple in Miyajima Misen, lush green plants and trees and seasonal flowers will create a unique backdrop for your photo shoot. Your special day will be captured beautifully in your photographs thanks to these surroundings.

This outdoor photo shooting will be subject to weather and weather permitting, you will find the photographs created in this setting unique to your day, a day like no other.

We can also take the photographs of the bride with her wedding gown fully trailed on the ground, which is the best way to really appreciate and capture the beauty of our Japanese traditional kimono.

Daisho-in Temple is the main temple of Shingon Mimuro Sect, one of the most famous temples in the western Japan. Since its establishment by the order of Emperor Toba in the early 12<sup>th</sup> century, the temple remained close to the imperial family until the Meiji Era (late 19<sup>th</sup> century). The temple used to own 12 other affiliated temples and was also in charge of Itsukushima Shrine until the separation of temples and shrines after the Meiji Restoration in 1968.

## Mani-den (Mani Hall)

The building where you will be blessed for your bridal happiness in the beginning of the ceremony is called Mani-den.

‘Mani’ means ‘long life and happiness’ and the hall is where the protective god of Misen, Sanki-Daigongen, is worshipped. This fierce god, followed by long-nosed goblins, is believed to help many people with his divine power. The hall is visited by many worshippers who wish their daily life to be blessed with happiness, health and long life.
